THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives may insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthed by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effects—giving cookery a more delicate appearance and flavor; and also a more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one is use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such a trial.

Milwaukee Daily Sentinel.

TUESDAY MORNING, DECEMBER 23, 1851

Rufus King, Wm. H. Watson & John. S Fillmore, PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO,

OFFICIAL PAPER OF THE CITY.

The News from France.

The Telegraph brings us stirring news from France. That country is again plunged into the vortex of Revolution. Louis Napoleon, it would seem, aspires to tread in the giant footprints of his illustrious granduncle, and to leap, as he did, from Consul to Emperor. This outburst in France may kindle anew the torch of war in Europe; and, if the attempt of Louis Napoleon to seize the reins of Government should fail, and the popular cause triumph, the long looked-for, long hoped-for hour of Europe's deliverance from centuries of thraldom may be close at hand. The curtain is about to fall, in 1851, upon great events on this World's stage; and the curtain may rise, in 1852, upon yet grander scenes. Kossuth, it will be seen, [illegible] New York [illegible], if the [illegible] propitious, he will return [illegible] to Europe, to lead on the hosts of Freedom in the [illegible] conflict. God speed the [illegible]!

Mr. Durkee's Vote for Speaker.

The Kenosha *Democrat* of the 20th instant, makes a violent onslaught upon Mr. DURKEE, the Representative from this Congressional District, for his vote for Speaker. Instead of supporting Linn Boyd, the "democratic" caucus candidate, Mr. Durkee gave his vote for Mr. THADDEUS STEVENS, a prominent Whig member from Pennsylvania. The Kenosha paper construes this vote as an act of treason to "the democratic constituency, whom Mr. Durkee was elected to represent at Washington." This is cool, assuredly. Mr. Durkee was elected over the regular "democratic" nominee by nearly *two thousand* majority, receiving the votes of Whigs, Free Soilers and Independent Democrats. In this Congressional District, at the last election, Governor FARWELL (whig) received nearly Eleven Hundred majority over Upham, (dem.) Of course, Mr. Durkee, if desirous of reflecting the sentiments of his constituents, was entirely right in voting for Mr. Stevens, in preference to Linn Boyd. Mr. Boyd, the old Hunker candidate for Speaker, is an enemy to River and Harbor Improvements and a friend to British Free Trade. Mr. Stevens, for whom Mr. Durkee voted, is a zealous advocate of Internal Improvements and of Protection to American Industry. Upon both these important questions, therefore, Mr. Stevens concurs with, while Mr. Boyd is opposed to, the popular sentiment in this Congressional District. And Mr. Durkee, in the vote he gave, did but justice to that popular sentiment. We trust that all his votes in Congress will be as acceptable to his constituency as the one which he cast for Speaker.

THE RESOLUTION OF WELCOME TO KOSSUTH.—The resolution of welcome to Kossuth, introduced by Gov. SEWARD of New York, passed the Senate, on the 12th instant (as heretofore stated) by the following vote:

Yeas—Bradbury, Bright, Brodhead, Cass, Chase, Clark, Davis, Dodge of Wisconsin, Douglas, [illegible], Felch, Fish, Foote of Connecticut, Foote of Mississippi, Gwin, Hamilton, Hunter, James, King, Mallory, Miller, Morris, Rhett, Seward, Shields, Smith, Spruance, Stockton, Sumner, Wade, Walker, Whitcomb—33.

Nays—Badger, Borland, Clemens, Dawson, Morton and Underwood—6.

The nays were all southern gentlemen, who seem to have thought that this welcome to Kossuth, a fugitive from slavery and a gallant champion of Freedom, involved a reflection upon the "peculiar institution," and threatened the permanence of the "Compromise," if not the safety of the Union.

Before the resolution passed, several ineffectual attempts were made to amend it, Mr. SHIELDS endeavoring to substitute the resolution previously offered by Mr. FOOTE, and then withdrawn. But the motion was rejected by 23 to 16. In the House, the resolution passed without debate, under the screw of the previous question, by yeas 181 to nays 16. It reads thus, and is simple and unobjectionable in its terms:

Be it Resolved, &c., That Congress, in the name of the people of the United States, gives to Louis Kossuth a cordial welcome to the capitol and the country; and that a copy of this resolution be transmitted to him by the President of the United States.

In compliance with the latter clause of the resolution, the President despatched the Chief Clerk of the State Department to New York, to communicate the Resolution of Congress to Kossuth.

THE MAILS of Saturday, Sunday and Monday morning brought us no papers beyond Detroit, except the N. Y. *Tribune* and *Express*, of the 11th, which made their appearance in the mail of Sunday morning. The latest dates from Detroit are only to the 15th—what the reason is, nobody can tell. How does it happen that two New York papers of the 11th get here, after lumbering along for ten days, and no other New York papers of that date? Where is the rest of the mail?

It is high time that the Department sent one of its agents to start with a New York mail, and come through with it, so as to find out the difficulty. We would have our papers and letters, with the regularity of diurnal rotation, in six and a half, or seven days from New York. As it is, we are indebted to the full telegraphic reports of the St. Louis *Republican* of the 15th and 16th for much interesting matter.

The Postmaster at Kenosha desires us to inform the *Commercial* "that no Milwaukee mails have been thrown off, or delayed at that place since he has held the office." The trouble is at, or east of Chicago, [illegible] but wherever it is, there ought to be a speedy remedy for it.

By the way, we hasten to make our acknowledgements for a Boston *Advertiser* of October 29th, received [illegible] by Uncle Sam's leathern convenience, yesterday.

WEATHER AT DETROIT—THE STEAMER *Detroit*, &c.—The papers received Sunday morning brought the particulars of the mishap to the steamer *Detroit*. She left that place on Monday morning for Port Huron with a heavy cargo and fair load of passengers. She had not proceeded, however more than 2 hours sailing from Detroit, when she found herself so clogged by the ice that they were obliged to stop her engines, and she floated aground on the north shoal of the St. Clair Flats.

The passengers who reached Algonac on Wednesday represent the steamer as not so immediately in danger, but that she may be saved; and accordingly they are endeavoring to cut a passage for the [illegible] from that place to assist her. During the gale a good portion of her cargo was thrown overboard, and among the items we observe 100 barrels pork—the winter supply of Port Huron.

The *Keystone State* started on Monday for Dunkirk, with 1050 [illegible] and 3,500 barrels flour. She only got to Malden, however, when she was frozen in. Her passengers returned to Detroit after a stay of two days. The *Free Press* says, "an aged man has been found frozen to death, having the appearance of a traveler of intemperate habits, by the name of Gentry."

"A man was found near that city yesterday, on the Pontiac road, with his feet and legs protruding from a hollow log into which he had crawled for protection against the bitter cold. He was taken to the hospital in a state of insensibility."

Girard, Dec. 18th

LATER FROM THE MAYFLOWER.—A change in the wind has the appearance from shore of driving the Mayflower into deeper water. She now lies on a ledge of rocks sunk four feet from the surface, the sea is rolling in heavy columns over her, and she is now beating most terrifically on the edge of the rocks. Her braces have parted, and she cannot probably hold long together.

DISTRESS AND CASUALTY.—The steamer *Clement* sunk in White River on the 15th instant so suddenly that twenty-three of the passengers and crew were drowned. Boat and cargo were a total loss.

MORE CHIVALRY!

On the 10th, in the House of Representatives, Mr. WILLIAM R. SMITH, who (we hope) misrepresents the 4th Alabama district, and who is, of course, a born "democrat," "ardent as a Southern sun could make him," exhibited himself to Congress and the country as follows:

Mr. Smith, of Ala., (Union Dem.) was excused from serving on the Committee on Claims. He then gave notice that he should ask leave to introduce a joint resolution, requiring the Secretary of State to furnish Kossuth with copies of all the laws *defining treason and misdemeanors*. The resolution, he said, contemplated further action. If after understanding the laws, Kossuth continued to make incendiary speeches, it shall be the *solemn duty of the President to have him arrested*.—[Laughter.]

Objections were raised, when he was notified by the Speaker it could be introduced by silently handing it to the Clerk.

Mr Stanton of Ky, wanted to know from the gentleman whether he designed to reenact the detested sedition laws.

The cry of order was here raised by various members.

Mr. Smith answered that he did not, but wanted to prevent any more Pampero expeditions.

Considerable sensation was produced by this novel proposition.

We think that Mr. Smith should by all means be excused from serving on the Committee on Claims. Certainly he has no idea of the claims of hospitality, as regards the exile, or of decency and respectability, as regards himself. The Smith family should hold an indignation meeting, and disown him.

Illinois Central Railroad Loan.

A. Hyatt Smith, Esq., President of the Rock River Valley Railroad Company, who has been absent in Europe on business connected with that company, returned recently and reports that Mr. Walker had concluded a negotiation with four of the Rothschilds for $17,000,000 for the Illinois Central Railroad Company, subject, however, to the concurrence of the fifth member of the firm, who was absent on the Continent. It was thought that there would be no difficulty in obtaining the concurrence of the absent partner, and the probability is, that, ere this, Mr. Walker has accomplished the object of his mission to Europe.—*Chicago Tribune.*

A similar statement appears in the Galena *Gazette* and the Chicago *Democrat*, qualified in the latter with the remark that some further action of the Board of Directors is needed to clinch the negotiation. *Seventeen Millions* is, indeed, a very large sum for one Banking house, however wealthy, to hazard upon a single venture; and yet no one familiar with the history of Rail-Road enterprises in this country, or conversant with the particular inducements held out by the Central road, can doubt that such an investment would be very much safer and far more remunerating than the Austrian loan, for instance.

NEW YORK OFFICIAL CANVASS.—The Board of State canvassers in New York completed their labors on the 13th instant, and declared the following persons duly elected to the offices named:

A. S. JOHNSON (dem.) Judge of the Court of Appeals, by 3320 majority. H. S. RANDALL (dem.) Secretary of State, by 844 do. J. C. WRIGHT (dem.) Comptroller, by 258 do. JAMES COOK (Whig) Treasurer, by 228 do. H. FITZHUGH (Whig) Canal Commissioner, by 903 do. W. J. MCALPINE (dem.) State Engineer, by 3,729 do.; H. STEVENS (dem) Prison Inspector, by 4,223 do., and L. S. CHATFIELD (Attorney General) by 251 do.

Of the SENATORS, each party elects sixteen, and there is a Whig majority on the aggregate vote of 2,580. Of the ASSEMBLYMEN, the Whigs elect 65 and the Democrats 63, with a Whig majority on the aggregate vote. The whole vote polled was 403,346; about 38,000 less than the vote in 1840, and 84,000 less than the vote in 1844.

KOSSUTH AT THE NEW YORK DINNER.—The speech of Kossuth at the Corporation dinner is said to occupy 8 columns. He spoke, says a despatch, over 3 hours in a strain of great eloquence and power, fully stating the grounds of Hungary's claims, and appealing to the American people not only for sympathy and aid of public opinion in Hungary's behalf, but asking means also, by contributions and loans. In the course of it he mentioned the fact of a generous gift of $1,000 to the cause of Hungary, by W. Snead of Cincinnati. It is also stated that Horace Greeley contributed another $1,000. It is now proposed by the friends of Hungary to organize a committee, and under the direction of Kossuth to receive subscriptions to a Hungarian National loan, and receive contributions in larger and smaller amounts.

The Detroit *Advertiser* says that Genin, the hatter, has given $5000 to the fund.

THE WAR IN NICARAGUA.—News from San Juan to the 24th of November, has been received, to the effect that on the morning of the 19th inst., General Chamorro, with his army of Nicaraguans and Honduras men, entered Leon, the headquarters of Munoz, at all of the principal streets, and drove Munoz's soldiers to the Plaza, where, having no fortifications, they were obliged to surrender; and Munoz and his officers, with 27 Americans, were thrown into prison, and are probably shot before this time.

The writer of the account says:

Our Charge, the Hon. John B. Kerr, cannot, of course, assist our deluded brethren who have been taken in arms against the State, for he is no more than a private citizen, having reached this country just at the breaking out of the revolution, and having had no government to treat with.

General Chamorro was wounded in the shoulder from a bullet supposed to come from a revolver in the hands of an American Lieutenant.

"THE BLIND LEADING THE BLIND."—The *Commercial* of yesterday, undertaking to correct the statement of the Detroit *Advertiser*, that Major McManman "is now Adjutant General of Wisconsin," says that Gen. Wm. R. Smith, of Mineral Pt. has that honor." The *Commercial ought* to be posted up, in such matters, if it is not: Our Secretary of State, Mr. Wm. A. Barstow, is the present Adjutant General of Wisconsin.

PAUL JONES' BODY.—An American gentleman resident in Paris, writes to the National Intelligencer, that he knows that the remains of the brave Commodore Jones, the scourge of the British channel, lie undisturbed in the leaden coffin in which they were placed by order of the French Directory: that they are fifteen feet below the surface of the ground, covered by a building; and that Congress can get them by making an appropriation for the purpose.

It looks very much like a plan to raise the wind.

STAGE HORSES DROWNED.—The last Peru Democrat says that Frink & Walker's stage going south, while crossing the river at the upper part of that town, and nearly on the opposite side, broke through the ice, and before assistance could be rendered, three of the horses were drowned. The crossing was considered safe, the stage having passed over on the ice the previous day. The mail and passengers sustained no damage.

☞ MR. PARK BENJAMIN'S Lectures at Detroit continue to attract and interest large audiences. The following paragraph is from the *Advertiser*, of Wednesday last:

PARK BENJAMIN'S LECTURE.—The third lecture by Park Benjamin, took place last evening. The attendance was full. The interest in the lectures is well sustained, as was abundantly testified last evening by the hearty repeated applause elicited by the exquisite satire of the lecturer.

HEAVY FORFEITURE.—The goods seized by the United States Custom House Officers in New York, on the premises of Mr. Herrick, have been declared forfeited, and will be sold at auction.—They consisted of books and stationery, in value about $15,000, imported under false invoices, as are millions of dollars worth annually under the British Free Trade Tariff policy of 1846.

IMMIGRATION AT QUEBEC.—During the year ending Nov. 14, there arrived at Quebec, 40,615 steerage passengers, and 625 cabin passengers.—Of the former, 22,401 came from Ireland, 9,491 from England, and 6,898 from Scotland. The total number exceeds that of the preceding year by 9,000.

☞ The whigs of Boston have nominated Benjamin Seaver for Mayor, in place of Wilkins, declined. The Locofocos will again support Mr. Thatcher.

Protection Ins. Co. of Rome, N. Y.

Eds. Sentinel:—

My attention has been called this morning to an article in the "Daily *Sentinel*," in reference to a meeting of some gentlemen at Rome, respecting an assessment by the above Company of 18 per cent on its stock. From the heading of the article, one might infer that the Company is not solvent. By letters received from the Company, within the past few days, as its late agent, I am satisfied this is not correct. It has settled over $2000 of losses in this State, within the past 8 days, and has evinced a willingness to meet others as fast as they may occur and be proved up.—The fact that it is making its stockholders pay up should not prejudice it in the eyes of business men. It would no doubt be more pleasant for stockholders to receive their dividends upon their stock well secured, than to be called upon to pay. The fact, however, that they are called upon when the necessities of the Company require it, shows that the Co. is disposed to do its full duty to its patrons and the public at large. The following is a list of the officers of the Company:

DIRECTORS.

John Stryker,	Henry Wager,
Calvin Comstock,	Jesse Matteson,
Geo. R. Thomas,	Ed. Huntington,
Gordon A. Bissel,	A. S. Williams,
Alva Mudge,	R. B. Doxtater,
Seth B. Roberts,	David Utley.

OFFICERS.

John Stryker, President,
Calvin Comstock, Vice Pres't.
Geo. R. Thomas, Treasurer,
Elon Comstock, Secretary.

Those acquainted at Rome, I think will vouch for the entire responsibility and respectability of the Board. J. A. NOONAN, late Ag't.

P. S.—Since the foregoing was written, I have met the annexed notice in the N. Y. Tribune of the 11th inst:

The New York Protection Insurance Co.—The following dispatch is from Mr. E. Comstock, the Secretary of the above Company.

ROME Dec. 10—the call for a meeting of policy holders in the New York Protection Insurance Company, published by the New York papers, was signed by only three instead of thirty merchants of this place, and by only 28 persons in all. The complaint was that the receipts of the company had been so large, that it was unnecessary to assess the notes, and a committee was appointed to investigate. Our losses, on mutual policies, have exceeded the receipts thereon, and notes are assessed about $20,00 for the deficiency. Policy holders are entirely safe, as the report of said committee, and the annual report to the Comptroller will in a few days show.

"A Pretty Pair of Pictures."

Under the above title the N. Y. *Tribune* publishes in parallel columns a Havana Police regulation and a South Carolina statute, and we copy them below. Concerning the second, the exclusive Union Safety press have nothing to say, but as to the first, the N. Y. *Express* remarks as follows:

Spanish Liberty to Colored Foreigners.—There exists an official Police regulation in force at Havana, of a most startling character to free English and Americans, which ought certainly to elicit the attention of the English and American Governments. It is as follows:

First Picture.

From the N. Y. Express.

"All colored persons, slave or free, that arrive from foreign countries, shall be sent immediately to a depot (prison) prepared by the Government for that purpose, where they shall remain until the moment of leaving the island; or they can remain on board the vessel, provided the consignee will give a bond of $1000 to be forfeited in case they leave her, which bond shall not be cancelled until the return of the boarding officer, on the departure of the vessel."

Second Picture.

From the laws of South Carolina.

"SEC. 2. And be it further enacted, That it shall not be lawful for any free negro or person of color to come into this State on board of any vessel, as a cook, steward, or mariner, or in any other employment; and in case any vessel shall arrive in any port of this State from any other State or foreign port, having on board any free negro or person of color, employed, &c., it shall be the duty of the Sheriff to apprehend such free negro or person of color, and confine him or her closely in jail until such vessel shall be hauled off from the wharf, and ready to proceed to sea.—When so ready, the captain shall carry away such free negro, and pay the expense of his or her detention."

R. R. V. U. R. R.—The Janesville Standard states that the deepest cuts on the grade of the above road between that place and Chicago, will be commenced during the winter. The length of the line is but 89½ miles; 29½ miles, is a continuous straight line.

FIRE.—The Janesville Standard state that on the 18th instant, the stable of Mr. Porter, of that place, was burned down. Two horses were consumed—said to be the work of an incendiary.

POST OFFICE DISCONTINUED.—The office at ONECONTA, Sauk Co., in this State, has been discontinued by order of the Post Master General.

City Matters.

MUSICAL SOCIETY CONCERT.—The Monthly Concert of the Milwaukee Musical Society, on Saturday evening last, attracted, as usual, a very full house and passed off to the general satisfaction of the audience. The Orchestra and Chorus, under Mr. Balatka's admirable leadership, gave renewed proofs of their proficiency, while the instrumental and vocal quartettes and the solo on the violin were warmly and deservedly applauded. The performing members of the society are now actively engaged in rehearsing the Oratorio of the Seasons, which will be brought out in fine style early in the Spring. It may not be out of place to state, in this connection, that a few Members' tickets for the Musical Society are for sale, and may be had on application to the officers, or at Napasteks' and Niedecken's Book Stores.

INCENDIARISM.—The alarm of fire Sunday evening proceeded from the Fifth Ward; some daring incendiary having set fire, in three places, to an unoccupied building on River Street, Walker's Point. Fortunately the flames were discovered and extinguished, before they had made much headway. The Fire Department were out promptly, as usual, but their services were not needed.

THEATRE.—The Manager offers another attractive bill for *this* evening, embracing the nautical Drama of "the Floating Beacon," the amusing farce of the "Lottery Ticket," and the "Rough Diamond." The little Baileys give some of their best dances in which they are *encored* nightly, and the Orchestra will play a number of favorite pieces.

EXCELSIOR SOCIETY.—An adjourned meeting of the Excelsior Society is to be held at the United States Hotel *this* (Tuesday) evening, at 7 o'clock to make arrangements for their Annual Festival Members of the Society, and all sons of the Empire State who wish to participate in the proceedings are invited to attend the meeting *to-night*.

CITY TRACT SOCIETY.—We are requested to call attention to the meeting of the City Tract Society, which is to be held *this* evening, at 7 o'clock, in the Lecture Room of the First Presbyterian Church, to elect Officers for the ensuing year.

NARROW ESCAPE.—A horse with a waggon attached, in which were five children, ran away yesterday afternoon, dashing along East Water Street at a furious rate. When near the Warehouses the children were all thrown out, but providentially not one of them was hurt.

☞ A young man named Day, an assistant of the clerk of the Common Council, was arrested and committed on Saturday, for forging 4th ward city orders.—*Free Democrat*

OREGON FIRE CO.—The seventh Annual Ball of Oregon Fire Co., No. 3, is to be given at Gardiner's Hall to-morrow, Christmas Eve. It will no doubt be well attended.

THEATRE.—Although we have not found it convenient to attend our theatre, yet we can say, the company are giving satisfaction, and to full houses. Last night it appears to have been too full, for a part of the boxes gave way and let about fifty gentlemen and ladies into the pit.—Fortunately no one was seriously injured. The play was the "Lady of Lyons."—*Dem. Standard, (Janesville)* 17th inst.

Kossuth's Speeches.

Our New York papers continue to be filled with addresses to the great Magyar, and his replies, sometimes at length, and sometimes very brief, but always happily adapted to the occasion. We have no space for any of the longer ones in full, and content ourselves to-day with giving extracts from two of them. The first is in answer to the address of the Industrial Congress, whose committee entered at length into an exposition of their peculiar views. We give a portion of Kossuth's reply, showing how admirably he avoids being entangled with any partizan views on this side of the water. After thanking the Committee for their expressions of sympathy with the cause of Hungary, he said:

You went on to certain explanations of your views about certain circumstances of your own land. Allow me not to enter upon these topics with you. It is no easy matter for a foreigner—if a foreigner had the right, as he has not exactly—to judge the peculiar circumstances of a foreign land, and chiefly difficult for a European to form an exact judgement upon the particular circumstances America, whose every existence is founded on such principles and such antecedents as have almost nothing in common with those upon which the present condition of Europe is founded; and, therefore, I freely confess that, though a long life of earnest study and of activity might have given me some understanding of the political circumstances of different countries; still, were I even a citizen of the U. S., I would not have the arrogant pretension slightly to form a judgment on the condition of the country, to understand which, higher intelligences than mine would want much time and application. But even if it were not so, I stand here among you, gentlemen, upon one principle, to which I will consistently adhere, under every difficulty and every circumstance. That principle is that every nation on the earth has, by the blessing of God, all it can desire when it has the freedom and the faculty to be master of its own fate. (Great applause.) If a nation provided by God's blessing with this faculty, to be master of its own fate, has not either the understanding, or the resolution, to become as happy as man can on earth, such a nation deserves *not* to be happy. (Applause.) Therefore, taking these principles in consideration, I am come to the U. S. to plead before your just people for the benefit of mankind—particularly for my fatherland—the great principle of the sovereign right of every nation to dispose of itself. (Applause.)

Feeble and weak as I am, but strong because resolute; because endowed with that faith in my cause which was the faith of those martyrs who were ready to die for their faith, and therefore removed mountains by this faith; strong because endowed with this faith, and powerful because standing on just ground, it is the justice of a cause which gives power to it. I, an unfortunate exile, crave from the whole of humanity the right of my nation to be respected by every people on earth—the right to dispose of its own domestic concerns—and claiming this right for my own nation, I myself consistently bow and respect it in every place on the earth. [Applause.] Therefore, gentlemen allow me not to enter into these topics.—You, as a portion of your people, have the happy privilege to enjoy such institutions as give you your part in the practical exercise of the sovereignty of your people in legislative, in administrative, and in executive respects. It is your privilege and your duty thus to do, and you are accountable to God and your country how you use this privilege. And it is for the universality of your people in their constituted bodies to be the tribunal which is to decide upon these circumstances. I have only to thank you for your sympathy with that principle of freedom which I represent. I have to express my convictions and my confidence that I firmly believe—and I never speak a word which I do not believe—you have not introduced these topics of your internal polities with a view to entangle me in party difficulties in this country, which entanglement must of course lead me to a perfect failure to benefit the class whose interests brought me to your shores, and by your sympathy for whom you honor me.

Therefore, I only believe that you have taken this opportunity to express your views in an assembly, about matters which you consider important for you; but that you have not expressed them with the desire to entangle me in any party question. [Voices, "Not at all."] And having this conviction, I beg leave once more to express to you my thanks, with the addition that no man on no condition on earth can feel offended by the principle I declare. That sympathy for the cause of my country is dear to me, from whatever quarter it comes; but it is at no moment and in no place so dear as when it comes from the working classes; [applause;] because I consider that the most noble charter of man's dignity is honest labor; [applause;] and because, knowing this, I must be well aware of the fact that one working man, whose greatest treasure is his time and his work, sacrifices a portion of his time to stop in his work in order to express, to demonstrate, to manifest his sympathy towards a poor exile, because he is connected with the cause of Liberty.

The other extract for which we make room, exhibits the manner in which the Magyar, still boldly claiming to be the loyal Governor of Hungary, speaks to his fellow exiles in this country. The speech was made to a large number of his countrymen who waited upon him:

I do not want any declaration from you that you are ready to follow me. Your feelings are the same as the feelings of every Hungarian at home. How should this patriotic feeling not be the feeling of the Hungarian emigrants spread over the world? I am sorry that I advised many of my countrymen to remain in Turkey—too far away *to be ready at the first moment of opportunity* to strike another blow for freedom. Concerning these emigrants, I am glad to hear that many of them refused the bitter bread of charity; that shameful bread for a man who is able to fight, or to work. There is nothing so contemptible as idleness and inactivity. Not only the personal welfare of the Hungarians resident in this country, but the cause of all Hungary requires the sympathy of America; and those who rely upon the fact of their having fought in Hungary as a reason why they ought not now to work, are a disgrace to the cause. I hope, therefore, that all will seek for and find employment. I do not hope, nor will I ask for any other assistance than this, for the Hungarian emigrant, except for the invalids, whose misfortunes prevent their working. As I represent the whole cause of Hungary in my own person, and may injure or serve it by my conduct, so may each emigrant, in a measure, represent his country, and do it honor by honestly laboring for his living. It may be that assistance will be found for the cause everywhere in this country, but wherever it is found, let it never be for the emigrants, but for the cause. For example, it would be better to get ten muskets than one man. The expenses of one man would exceed that of the muskets; but he would not be so valuable in the struggle as they would, for to have plenty of soldiers.

I cannot, therefore, give you any hope that I will take you to Hungary to fight at the expense of the country or her friends; but if you will work and earn the means of defraying your own expenses to Hungary, you will be welcome there, for the more the better. It is the duty of the emigrants to obey me here as much as it is at home. I am the governor elected by the nation, and the Emperor of Russia's arms or the treason of Gorgey, cannot diminish the legality of the election. By victory we might have gained independence. But it is by the misfortunes of Hungary that a feeling of brotherhood is mixed throughout the world, which augurs so well for the future of humanity. The first step in the course of despotism is to excite antipathy between men of the same country. In Hungary we were firmly united in slavery, while antipathy broke out at the very hour when, by the blessing of God, I succeeded in replacing the common slavery by common liberty. Misfortunes have, therefore, an important use, for now we are again united in Hungary in sentiments and resolution. We exiles who have seen at home, and felt at home, every moment, the tortures of humanity, now see humanity in different parts of the world, in such a condition as to raise the hopes, the confidence of men for a better future, But more particularly does America inspire the hopes of mankind.

FIVE MEN LOST ON THE LAKES.—We received this morning per favor of Mr. Shules, of Speed's Line, a despatch from Racine, stating that five men left Chicago Tuesday last on a scow for that place, and were seen day before yesterday off of this city or Racine; and not having been seen or heard of since, it is feared they are lost. They belonged in Racine, and had been to Chicago with a load of wood. A vessel all manned, was ready last night to go out from Racine in search of them. There is but little ground for hope as to their safety.—*Kenosha Telegraph.*

The *Commercial* of yesterday had the following despatch on the above subject:

Racine, December 20.

The sloop Wunx, from Chicago, bound to this port, has been lying off in the lake, several miles, for three days, unable to make the harbor. Much anxiety is felt on her account, and the schooner Union has been chartered by the Common Council, manned by volunteers, and gone to her assistance. The crew of the Wunx consists of Captain Eastman and four sailors. The Captains of all the vessels in port are among the volunteers, and took provisions and wood for several weeks.

☞ The numerous friends of Capt. Howe in this vicinity will be grieved to learn from the following paragraph, which we copy from the Detroit *Advertiser* of Wednesday last, that his long impaired health has at last affected and threatens to destroy his mind:

CAPT. HOWE.—We regret to learn that Capt. A Howe, formerly of the steamboat Empire, and more recently master of the America, was conveyed from Cleveland to the Insane Asylum at Columbus, a raving maniac. Capt. Howe has been somewhat shattered in health for a long period.

On last Saturday night, a complimentary benefit was given to Miss Julia Dean, which was the largest audience since the Lind concerts.

From the Plains.

Independence, Dec. 15.

A. W. Reynolds and Company arrived here at 7 o'clock this P. M. from Santa Fe en route for Washington City. They report no news of interest from Mexico. The weather on the plains was intensely cold. Numbers of Government animals lost in two snow storms.—Thermometer stands as low as ten degrees below zero here. Missouri river completely blocked up with ice.

Boston, Dec. 15.

At New Orleans, on the 5th inst., in the District Court, a singular suit was commenced by the United States against Kelty Smith, a rich broker of New Orleans, and J. C. Smith, his son, residing at Baltimore. Counsel for plaintiff states that Kelty was a defaulter thirty years ago as Navy Agent, to the extent of $200,000 for which judgment was obtained in the District of Columbia in 1822, since which Kelty has been doing a heavy business in his sons name. The Court granted a writ authorizing Bank deposites and all property to be held until the suit is decided.

A great Kossuth meeting was held on Saturday evening in this city, at which a series of resolutions were passed, expressing sympathy with Kossuth, and recommending the extension of the doctrine of non-interposition to those nations only, who have themselves observed it; and decidedly in favor of intimation to the powers of Europe, that they shall not quench the rising sun of liberty in neighboring nations.

The sentiments of Kossuth as expressed in his speech were responded to. Bellamy Storer, Cassius M. Clay and others addressed this meeting which was largely attended by the leading men of the city.

The Christiana Rioters.

PHILADELPHIA, Dec. 12.

In the Circuit Court, this morning, application was made for the discharge of all the prisoners in custody for being concerned in the Christiana riot. The District Attorney announced that all will be held to answer the minor offence of misdemeanor; and those against whom detainers have been entered by the authorities of Lancaster county, will be sent there to take their trials for murder, or to await such action as may be determined on. The District Attorney said he was determined distinctly to test the question whether a refusal to aid the officers was not such a forcible resistance of the law as is recognized by it.

Heartrending Tragedy.

ST. JOHN, N. B. Dec. 10, 1851.

An insane man named Carrigan, living seven miles from St John, N. B. on last Sunday night murdered his wife, two children, and aunt, and dangerously, and it is feared fatally wounded four other persons. It appears that he called his family to prayers, and then made the attack upon them killing his wife. His youngest child he placed on a pole, and severed its head from its body with a knife. He then escaped into the woods and was afterwards taken with his body frozen.

Washington, Dec. 16.

SENATE.—Mr. Jones of Iowa presented a joint resolution of the Legislature of Iowa maintaining the obligations of the people of every State to observe faithfully the provisions of the constitution, and that the compromise measures must be sustained. Mr. Jones added; the people of Iowa had constitutionally performed their constitutional duties and had by their patriotism given an example to others. Abolition and fanaticism had never been successful in Iowa. There are but few Abolitionists and Free Soilers in that State. He thought if the Senator from Mississippi had been well informed of these things, he would have been more sparing of his comments of the administration. The resolution was ordered to be printed.

Mr. Shields presented a petition of Gen. Jose Maria Harera, complaining of the Board of Commissioners, and petitioning Congress for relief.—The claim was originally an American one, but was purchased by the petitioner, a Mexican, before the Treaty; and the Commission rejected it because it was not an American one at the time of the Treaty. Numerous petitions were presented from the publishers of newspapers, complaining of the discriminating of postage on transient newspapers.

HOUSE.—The speaker announced the committee on rules to consist of Mr. Jones of Tennessee, Stephens of Georgia, Chandler, Robinson, Stanley, S. B. Wright of N. Y. King of Rhode Island, Olds and Wallace. Mr. Darby of Missouri, is suffering from Paralysis in a helpless condition, and the speaker was authorised to pay him his mileage and per diem from the beginning of the session.

CLEVELAND, Dec. 18, 6 P. M.

The steamer Empire left this morning for Buffalo, and she had to force her way for miles through the ice.

Thermometer is three degrees below zero. It has been snowing East for three days and is still snowing at Dunkirk. The snow is 2 feet deep.

AN INCIDENT.—Yesterday morning a large crowd of persons assembled in front of the Irving House and expressed their disapprobation at the appearance of the British flag, which had been flying in conjunction with the American, Hungarian and Turkish ensigns since the arrival of Kossuth.—Word was sent to Mr. Howard that the English flag was odious in the eyes of the crowd, and soon after, a threat was sent that if it was not taken down instanter they (the people assembled) would take it down themselves. Mr. Howard had sent a man to take in the flag, on the first hint, and the excitement was soon over. We are not informed of the reason why this flag was so singularly obnoxious, but the promptness with which Mr. Howard accommodated the people was probably the means of preventing a serious outbreak.—*N. Y. Tribune*, 11th.

COLD WEATHER.—Last night was the coldest that we ever recollect to have experienced in Toledo. This morning the river is frozen so as to be safe for horses. The ice is four inches thick, thermometer 7 ° below zero at daybreak to-day. So sudden and solid a "freeze up," is not within the recollection of the "oldest inhabitant."—*Toledo Blade*, Dec. 16.

THE WEATHER, &c.—The weather, Wednesday, was cold. The thermometer at sunrise, 14 below zero. During the afternoon, 10 to 15 above. Dubuque papers report the River opposite that place closed tight. The stage does not cross.—*Galena Gazette*, Dec. 18.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, December 23, 1851.

During the early part of last week, business in all departments was checked by the extreme cold weather, but since Thursday the weather has moderated, & receipts of produce very much increased, and trade improved accordingly. No great change is to be noted in prices, but cash is paid readily for such produce as comes in. Receipts of pork are increasing very largely, and dealers have their hands full.

The money market is stringent enough, and collections from country dealers difficult to make. Now and then we hear of merchants about closing up, but as a general thing our business men stand the brunt of the hard times well.

FLOUR—Receipts from the country very limited. The mills run off some 1500 bbls. during the week. We quote inferior to common country at $3@3,50; common to fair do $3,62½; fair to extra country and city $3,50@4.

WHEAT—hardly maintains the advance noted last week; receipts reach 5000 bus. Sales at 35@45c for spring and 45@55 for winter—choice samples of winter being taken at the mills at an advance over these rates.

BARLEY—moderate receipts, and sales at 35@40c.

OATS—quick at 18c.

CORN—limited sales at 32c.

RYE—a few loads taken at 35c.

PORK—Supply largely increasing with the improved roads, and quality good. During a part of the week, $4,25 @4,50 was readily paid, and in some cases rates were above those figures. Buyers were busy yesterday in taking in a large number of dressed hogs at $4@4,25@4,37½. By the barrel $12 is asked.

We append the latest Cincinnati, St. Louis and Detroit reports:

At Cincinnati, the price current of the 3d inst. gives 106,707 as the total number of hogs that up to that date had been slaughtered there and at Covington and at Plainville, being 64,401 more than up to the same day, been slaughtered last year:

On the 15th, hogs advanced to $4.65 @4.70 and the demand fully equal to the receipts.

At Detroit, on the 18th, says the *Free Press*:

There is considerable Pork being placed, the greater part of which comes in on the Central Railroad. The prices paid are $4 18@5 50, according to weight of the hogs; 200 lb hogs bringing $4 50@4 60.

St. Louis, December 15.

Hogs—Sales the two past days were more brisk than usual, and prices are advancing. Subsequently holders at market of very fine lots of hogs to-day which had not as yet been sold—prices demanded, from $4 65 to $4 75. The weather was exceedingly cold, too much so for cutting. The following sales were made for the two last days:

LARD 8@8½c.

BEEF, quick at $4 00@$4 25.

VENISON, 4c per lb in the carcass.

SALT, 1,62½c per bbl.

HIDES—green 3½c pr lb, dry 8c.

The following is the Liverpool market by the Europa:

Liverpool Market, Dec. 6.

Cotton—The [illegible] news from Paris check upward tendency in the markets. Subsequently holders in market evinced an increasing anxiety to realize, which gave purchasers an advantage on about one-eighth of a penny. Sales of the week, 1,900,000 lbs., of which 60,000 lbs. were to speculators—10,000 lbs. for export.

Flour had [illegible] active at an advance of 6d.

Corn—Good export demand, and prices advance 6d.

Wheat—Advanced one penny.

Provisions had undergone no change, notwithstanding the alarming news from Paris.

TRADE AT MANCHESTER.—A fair average business was going forward at Manchester.

THE FUNDS—British funds had been very sensitively affected by the sudden and astounding change in French affairs. Under the accounts received at London, on the 2d inst. consols receded 2¼ per cent. Sardinian stocks had fell 2 per cent.

The following day the London stock market revived itself in some degree, and consols closed at [illegible].

Chicago, Dec. 19.

Wheat—Sales 1131 bushels prices firm at [illegible] for Spring for store and [illegible] for milling.

Oats—Sales reach 2349 bu. at 16@16½c.

Barley brings 25@28c for 48 lbs.

Hogs—Market to-day buoyant and receipts fair. We hear of the following sales: one lot of 400 at $1—one lot of 300 at $3.75. There have also been some small lots at [illegible].

Arrival of the Steamship

EUROPA.

HIGHLY IMPORTANT NEWS!

ANOTHER REVOLUTION IN FRANCE!

Paris in a State of Siege.

New York, Dec. 20.

The steamer *Europa* from Liverpool arrived at Halifax this morning, having experienced a constant succession of gales. She left Liverpool on the 6th instant. A man was lost overboard during the passage. The *Canada*, Cunard steamer, arrived at Liverpool on the second instant, after a rough passage. The *Baltic*, Collins steamer, also arrived at the same place on the 4th.

CONTINENTAL NEWS.—Affairs in France has reached the crisis long dreaded. The *coup d'etat* which has been spoken of so much by the Republican party, had been made on the 1st inst.

PRESIDENT BONAPARTE HAS SEIZED THE REINS OF GOVERNMENT *dissolved the Assembly*—declared PARIS IN A STATE OF SIEGE, and appealed to the people.

His preparations were made with such consummate skill and secrecy, that every thing was consummated before the assembly had the least idea of the President's intentions.

An entirely new ministry had been formed; and by daylight on Tuesday the President's Proclamation was found posted throughout the city. In the proclamation he ordered the dispersion of the Assembly, and the restoration of universal suffrage. He also proposed a new system of Government, which provides for the election of President by the people and the army. The President to hold his office for ten years, and to be supported by a Consulate of state and by the House of Assembly; till the pending election the executive power remains in the hands of the President. The election is ordered to take place the present month.

The President promises to bow to the will of the people, and asserts that he has been forced into the present measure.

It is certain that Changarnier and others of his adherents had decided to demand his arrest and imprisonment on the 3d inst, and were almost in the act of moving in the matter, when they and their principal friends were conveyed to Vincennes. Whenever the members of the Assembly attempted to meet the difficulties they have been ordered to disperse, and where they had refused to obey they were arrested. In this manner 20 members of the Assembly had been arrested. Many had been subsequently released, but the leaders of the opposition are in prison.

Later accounts state that 200 members of the Assembly had given in their adherence, and telegraphic despatches from the departments in the country state that the demonstration of the President had been hailed with extreme enthusiasm.—Subsequent reports, however, contradict this statement.

Several barriers were erected in different quarters of Paris, between the streets, but were speedily broken up by the troops. Two members of the Assembly occupied a prominent place, and both were killed in the conflict.

On Thursday, a section of the Assembly continued to meet, and decided on the deposition of the President. The meeting was dispersed by the troops, and the decree ridiculed on all hands.

Troops had been placed in the houses of the Ex-officers of the Assembly, who were exempted from arrest; among others, M. Dupin.

Martial law prevailed against all persons concerned in barricading, and large numbers were shot. Up to Thursday, the success of Louis Napoleon seemed certain.

London advices on Friday do not materially vary the prospect between the parties; new elements are constantly arising.

LATER DETAILS.

TERRIBLE BATTLE In the Streets of Paris!

New York, Dec. 22d.

By Telegraph from London to Liverpool.

Paris, Dec. 5th.

The decree of the President appeared to-day ordering the voting, which is to take place on the 30th, to be secret instead of public. Rumors of continual fighting to-day in various quarters of suburbs, but they are not to be relied upon.

The latest printed accounts state that the insurrectionists had been put down, but not without a severe struggle. Accounts from the provinces are generally favorable to the President.

The movements of the troops are rapid, silent and firm. Many barricades were thrown up in various quarters of Paris. At 1 o'clock, while a body of 5000 troops were passing along the Boulevards, several shots were fired from the neighboring passages, and houses.

The firing was returned by the troops, and the combat continued with spirit for about three hours.

Further down the Boulevards, cannon and musketry were freely employed, until four o'clock, when the fighting there ceased, but was continued with vigor in other sections. No definite particulars had been published. Little is known beyond the fact that a sanguinary conflict had taken place. Many persons engaged on either side have been killed or wounded.

London, Friday evening.

The latest accounts from Paris present the troops successful at all points. Several hundred French refugees left London on Thursday for Paris. The French Government had the entire control of the telegraph line, and had stopped the transmission of all messages.

The Paris correspondent of the London *Herald & Chronicle* says that General Chastillon at Lyons, and General Eymer had declared against the President, but that is denied. Doubts are also entertained of General Menonier's despotism against the Gov't.

The *Daily News* states that General Menonier is marching from the north with 4 regiments, and will oppose the President.

The *Times'* correspondent states that the attempted rise at Deroeet was promptly suppressed, and that the most reliable accounts from the Department are favorable to the President's cause.

Prussia.

Berlin advices to the 3d inst. state that the telegraph from Paris caused the most intense excitement. The business of the Assembly was suspended, and the minority withdrew to hold a Cabinet Council.

Insurrection in Sicily.

The latest dates from Palermo states that Baron Yzee and other noblemen, had rebelled with a view to proclaim the independence of Sicily, and to compel the King to abdicate in favor of his son. A large portion of the inhabitants of Palermo had declared in favor of the project.

The 13th regiment fraternized with them, but by the prompt energy of the authorities the movement was checked. Several arrests have been made, including some officers of the 13th regiment.

THE FRENCH IN THE MEDITERRANEAN.—By the Gibralter steamer of the 19th, we have late advices from Smyrna *via* Malta. The French fleet had bombarded Robbat and Salee, for eight hours, causing great destruction of life and property.—The French also suffered some slight injury from the return fire of the Castle of Robbat.

It is also reported that the French fleet had gone to Tangiers for the purpose of bombarding that place.

The British ship of war had been despatched there to protect the interests of the British subjects.

England.

It is understood that arrangements are in progress among the officers of the Arctic Expedition to bestow some national testimonial upon Mr. Grinnell for his generous conduct in fitting out the late expedition from New York.

India.

The overland mail from India reached London on the 23d inst. The relations between the British and the tribes along the north-western frontier continue very unsatisfactory. A serious Mussulman riot had occurred at Bombay, caused by obnoxious publications, but the rioters were dispersed by the police without loss of life. Many shops were plundered, and women violated. The accounts state that the property destroyed was £15,000 sterling.

New York, Dec. 22.

We learn that a sailing vessel had arrived at Chagres from Kingston, Jamaica, and reported that the steamer Brother Jonathan, which had not come to Chagres, had put into Kingston in distress having 6 feet water in the hold.

The passengers would take passage in a sailing vessel for Chagres.

Mr. Kossuth did not leave the city this morning, but it is said he is waiting the arrival of the Baltic with later news from Europe.

The Cooper testimonial is postponed, in consequence of the engagements of Mr. Webster. The time and place are to be hereafter designated by a committee who are to have the matter in charge.

It has been snowing hard all the morning, and snow is still falling. From Philadelphia and Baltimore we learn that it is snowing there.

With regard to the *British Queen* Emigrant ship, we learn from a passenger that she went ashore on Tuesday. She had 270 passengers, 2 of whom had perished with cold. The rest were saved, and had reached Nantucket. The Captain had been sick for some time previous to the wreck.

CONGRESS.

Washington, Dec. 22d.

SENATE.—Several petitions and reports were presented.

Mr. Hunter presented a resolution authorizing the Finance Committee to employ a clerk. Adopted.

Mr. Miller, of N. J., introduced a bill making an appropriation for the improvement of certain rivers and harbors. He said this was was the same bill which passed the House last session, and failed to pass the Senate for want of time. He introduced the bill now, and recommended it to the early consideration of the committee, in order to prevent the same catastrophe as before.

The bill of last session was referred to the appropriate committee.

Mr. Cass moved that so much of the President's Message as refers to the Prometheus affair be referred to the Committee on Foreign Relations, which was adopted.

Mr. Hale's resolution, calling for information whether there had been any violation of the law abolishing flogging in the navy, was taken up, and amended so as to call for particulars in the case of one Latimer, who was punished, and thus adopted.

Mr. Pratt's resolution, providing that Friday in each week be set apart for consideration of private bills, was taken up. He said the committee on claims had reported last session on over one hundred claims, none of which were acted upon. Why was that committee to be forced, session after session, to examine those claims, when the Senate never acted on them? If the Senate never intended to consider the labor of that committee, why not abolish it?

Detroit, Dec. 20.

Advices from Malden represent the steamer *Key Stone State* to be in a very precarious condition, owing to the rain and floating ice. She has built a heavy raft of timbers for protection, in the hope that this artifice may save her.

There is also a rumor that the steamer *Detroit* has been cut through by the ice.

The heavy fall of snow it is feared will greatly impede the arrival of the western trains.

Baltimore, Dec. 21.

The bridge over the Roanoke at Weldon, North Carolina, belonging to the Roanoke & Weldon R. R. Co., was destroyed by fire on Thursday.

Buffalo, Dec. 22.

Hiram Knickerbocker, convicted of murder and under sentence of death, broke jail last night by the aid of an accomplice, who passed a pistol to him, with which he knocked down the turnkey and escaped. A reward has been offered for his recovery.

Two men were arrested and sent to jail, who were engaged in tearing down the bills offering a reward for his apprehension.

TAKE NOTICE!

PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used! In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodelled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1,25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common-sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st. FOR THE TOILET.

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair; entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the hair best hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to their toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 21 2m

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

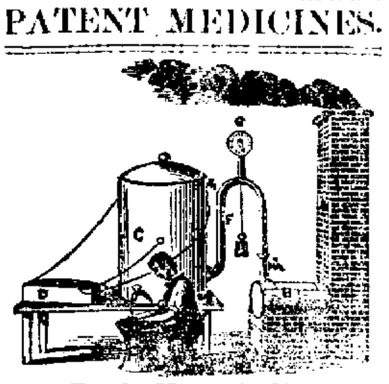
PATENT MEDICINES.



Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial Blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. H. TRIER & Co.

HINMANSVILLE, Oswego Co., May, 1848.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co. of Buffalo, which is a worthless imitation and the pamphlets a "base forgery," which will appear by comparing them with the Genuine. The certificates are copied verbatim. The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. E. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" The' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.
(Signed) E. W. SEHON,
E. STEVENSON.

Testimony Like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable. L. P. YANDELL, M. D.
Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.
Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

Winchester, Ky., Feb. 1, 1848.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

PATENT MEDICINES.

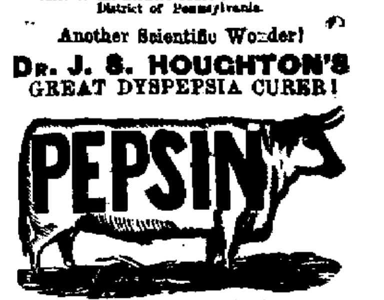
Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



PEPSIN
THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copy-right and Trade Mark secured.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
